Study language

• Promote culture communication by studying language

The teaching materials could be shared by the platform and tests could be done online. All the study states could be stored and analyzed. Further study could be customized by analyzing the test results. Studying results will be improved quickly.

Set up language class for ASPnet member schools with synchronized classroom. So every classroom could have language lesson by native teachers.
SCENARIO B

**Project on certain topic**

- Organizing the project research, discussion, debate and practice under certain topic under SDG4.
Master Classroom

- Each school recommends a Master teacher to deliver one speech every month
- UNESCO specialist presents Master research achievement
